

## Donald Wayne Alavezos

April 14, 1939 - February 7, 2021

Our dad didn't tell us how to live, he lived and let us watch him do it. Don was first and foremost a man that loved his family and friends above all else. He was a selfless person that was always the life of any gathering. Everyone who knew him loved Donnie. Don served in United States Navy Seabees Division and was so proud to have done so. He married Connie Hinds in October of 1960, they were happily married for 57 years. He was a "Trucker" by profession and loved his job. Donnie and Connie raised their family of two daughters in Fresno County, later retiring to Squaw Valley, Ca. His brother Dale was his best friend. They shared a special bond that transcended mere family ties. Don was preceded in death by his parents, Harry and Lydia Alavezos, and his wife Connie Alavezos. He is survived by his brother Dale Alavezos, his two daughters, Sherry Andres, and Denise Kraus, his three grandchildren, Mike Andres Jr., Nicole Furrow, and Kacy Gray, his two son-in-laws, Mike Andres and Garret Kraus and his grandson in-law Scott Furrow. “ Donnie was hilarious!! I always enjoyed giving him a good razing because he gave it right back with love and Connie being shocked and saying Donnie! But my most favorite memory of Donnie is when he would be visiting and all of a sudden he'd say Connie let's go!! Connie would say Donnie! He'd say again, Connie let's go!! We'd all give him a bad time for leaving early! Donnie & Connie made you feel like you were part of the family and made you feel so loved and you couldnt help but love them back! They were the best!
