“ Bert and I were friends for 40 years and I do understand your lost. Bert was a special person who freely gave of himself to those around him. I was greatly blessed to have had him as my friend. As I told Bert he was leaving a big hole in my life that I will not be able to fill but that this was not good-by, we would see each other again in Heaven. The lost now is great but the joy of our reunion will be greater. Special people are always hard to see pass from our presence because of all the joy they gave us. So may God bless you all during this difficult time with joy and peace for a life fully lived. Love to you all, Ron Moore

I was so sorry to see Berts name in the newspaper. I had known Bert many years ago when he had sold a house for me and when he saw that I collected cups and saucers he gave me a very nice set for my collection I have always treasured it. He was always kind,friendly and Real. I was so sorry to hear that he struggled with cancer for sometime. I pray for his family to have peace in knowing that he is out of pain and in a better place. Rest in peace Bert.
