His smile and personality will be missed.

Dad was the coolest man and father. He always had so much joy in his heart and some days even at his worst still kept a smile on his face. Even though there were some rough days, arguments and disagreements, at the end of the day when it was all said and done he would still find a way to make you laugh. He still finds a way to make you smile as well as make you feel better through our memories. If he saw something wrong with you. He was good at catching you while being alone and uplifting your spirits. He always encouraged you to think smarter and helped you make better choices for yourself and our family. Dad always took care of us especially when when we needed him and above all else he never let us down. he favored all his kids and we all had our own bond with him. That's what makes him the coolest Dad and man he was definitely a goofball full of love and happiness .

He loved painting them old school cars. It didn't matter what car it was. He just knew it got beat and him painting it and don't forget him driving it but also, don't forget he is never gone he always here with us and we are forever rockin for emm. He worked at the pool hall in the tower district where everyone loved

him and everywhere he went he knew somebody. He will be greatly missed.
