“ *I think about you everyday mom, I love you, I wish I could turn the clock back and do some things differently but I know I can't so I have to move on and just keep you close to my  heart. If only I could have one more day with you, no one knows how much this hurts no one knows what I been going through since you been gone or how I feel no one except you and God but I know you are watching over me and everything will be alright.    love yo always and forever *

“ I want to say how much i love  and miss you mom soooo much, mom was the best mother anyone could ever have. Mom was my best friend my inspiration my comfort growing up, mom you were the best example in my life you showed me how to put family first and how to love my own family. Mom you showed me how to be a good hard working women, just as you were a very hard working women all your life, you showed me how to cook and be responsible, you showed me how to be strong because you were one of the strongest women i know. I know we had alot of talks before you became ill with this awful dimentia/Alzhiemers and you always wanted me to make sure everything was taken care of, there was things you would tell me that you wanted no one else to know things you wanted no one else to have so i hold those things close to my heart as i will hold you close to my heart always and forever, until we meet again. I LOVE YOU SO MUCH      Your memories will never be forgotten but instead remembered through pictures, conversations, music and much more.
