“ As I knew him as Jake my best friend my lover at one point. He has always shown me special kind of love that no one has ever given me with respect and affection. Jake will always be a part of my life he’s smile gives me happiness and I was there with him the last time he was at the hospital I helped him shave his face and I asked him if he wanted me to cut his toe nails 😊 and he said no and started laughing with me. Then I sat on the hospital bed with him and told him I loved him and I wish he was feeling better. Then I give him a kiss and we took a picture. And then he had to do a procedure and they asked me to leave. We where both so happy to see eachother and he was so proud of me for doing good. With him it was always a good time and great memories with that man. I love you as much as you loved me .
