“ Jason and I have been friends for over 20 years. We spent a lot of time hanging out and got pretty close. He knew me pretty well. I always was the one he would call when he needed cleaning done at his parents and then at his place. He was always just a phone call away, always concerned about my family and showed his caring nature to everyone he knew. He was one of my very best and he will be missed greatly. I can't believe you're looking down on me now, I never would have thought that this day would come so soon. We talked about this and had so many questions about the afterlife. I suppose you know the answers now. You had the answers to many things that I found difficult to understand. I love you and will miss you until we meet again.

“ Jason,

Thank you for all you did for our family over the last 50 years, your memory will live forever in our hearts. You were always there to help my dad with his many projects always quick to volunteer a machine or give a helping hand. Over the years, from grammar school to adulthood you always went out of your way to shake hands ,see how the family was doing, and make sure we were cool. Your ability to speak to all walks of life was so amazing, with no judgment you spoke to all and sincerely wanted to hear the good and help mend any bad .Our hearts are heavy knowing you wont be there. Thank you for being such an amazing neighbor, friend and family member. Go slow Family, one love .
