“ Dang cuzzin this right here hits really hard. Still just can't beli u not here with us any more. Last time I saw you was at grandmas viewing. Who would've thought we only had a few more months together. The times we had growing up together where amazing. Couldn't wait for every wkend to come so I could spend the night or just come over and hang out. The late night parties hanging out all over town and watching pop and lock u where the best at it. I loved to tell everyone that yep that's MY cousin. Even remember those times hanging out at RHS at the dance parties and the time they had you do something for tv cuz they had u on the news. Loved going camping with you guys every summer. Because of that my love for camping has never stopped. Though I was older and taller 😭 I always looked up to you. Gonna miss you an that big ol head 🤔🤔 me and the cousins would always tease u about. Gonna miss your contagious smile and that laugh. Love u more then you will ever know.
