DF

“ Dear CHL:

Its a shock to learn that Kum Sang is no longer with us.

In 1974, I completed my University of Manchester postdoc position and went to Austin Texas to work with Taro Tamura. As you surely know, Taro was Kum Sang's PhD. thesis adviser. There I became aware of Kum Sang's important contributions to nuclear reaction theory.

While I was in Austin, Kum Sang was in Saclay France. There we communicated through "writing letters." There was no emails then but our collaboration was no less intense. It was through such communications that I became aware of Kum Sang's enormous energy and talent as a scientist.

Since he returned to the University of Malaya, we lost touch with each other. Although we did not connect much with each other in the last 40 decades, I did learn from second hand knowledge that at the University of Malaya, he had moved into experimental plasma physics, and was doing so with the same gusto and tenacity as when he was in Austin.

I am profoundly saddened to learn about his departure. I will miss my friend Kum Sang.

Warmest personal regards

Da Hsuan Feng

*former Vice President of Research, the University of Texas at Dallas
Chief Adviser, China Silk Road iValley Research Institute*

Da Hsuan Feng - May 06, 2019 at 03:01 PM

MR

Malini olivo and ignatius Rasiah - July 09, 2018 at 12:52 PM

MO

“ *A brilliant and caring mentor who was so passionate about science and life and he embraced both with such dedication and commitment . He left a lasting impression in all those he nurtured and mentored . His legacy to science lives on through those whose minds he blessed . May his soul rest in peace forever.*

Malini Olivo - July 09, 2018 at 12:37 PM
