“ *I attended Porterville College with Michael. We were in the Psych Tech Program together. We had many laughs and good times during this time. He would always tease me because I would stress out of grades and tell me shut up because you will get a A! I loved his laugh and every year since then on thanksgiving we would text one another because of a joke we had about stuffing. We called it happy sticking day due to my mom making the stuffing wrong. Anyways, I did text him this year unknowing it would be our last text and last thanksgiving text. I will miss you my friend and miss your laugh! Until we meet again.*
