“ *I remember when Claudie and Phil first met, what a beautiful love story. I remember how happy he made Claudie and even though it was a while before we actually met I knew I would like this man that brought such joy to my dear friend. I remember the first time we met, I believe it was some kind of company function because there were a lot of people we worked with around and ALL the ladies were just head over heels because Phil was so handsome. Claudie is such a beauty they looked like they had just stepped off a fashion magazine. And after talking to him and getting to know him a little more I realized that like Claudie he was just as beautiful inside as outside.*

It took a minute for them to get married but they were meant to be together and anytime I talked to Claudie she was always so happy. So Phil Rest in Peace and I know that you are looking out for your loved ones from heaven.
