Yes so many memories of the two of you together! I'm glad the two of you had such a long conversation the day before he passed. I heard him laughing a lot and that always makes me smile.

“ This man made my childhood amazing. He never allowed my sister or I to carry any worries growing up. He made sure we had everything we needed and wanted. He took us to beautiful places and was a second dad to our friends growing up! I want to honor you dad by living my life the way you wanted!
