“ *Sally was a friend of mine all thru school even at Pomona Elementary School where we started first grade. And we graduated from Washington Union High School in 1958. We have Class Luncheons on a regular basis in Fresno area and we talked about Sally and the fun we all had with her. I also knew her brother Billy Foster and Peg and Lou and remember her talking about Auntie Babe. When I was about 10 years old we moved to another house not far from there but in same school district which was American Union and then Washington Union High School. The friends we share with at the luncheons all know Sally Foster Conway and have graduated from Washington Union. My name is Doris Armstrong Mueller and have shared many memories with Sally over the years.*
